

WIREWORLD®

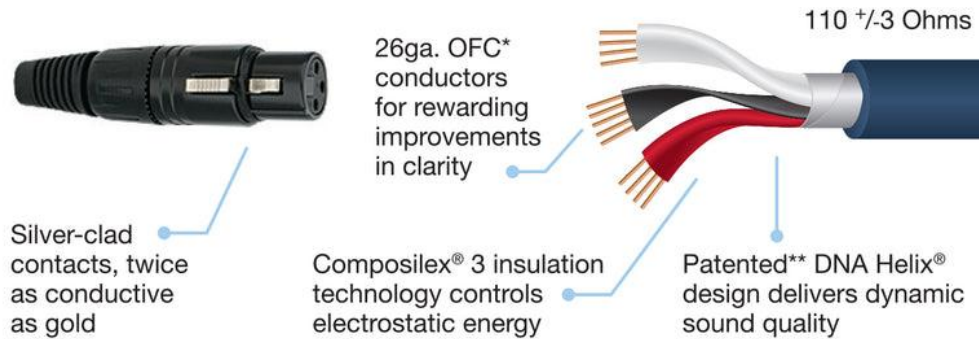

CABLE TECHNOLOGY

Luna's small size and dynamic sound has made it Wireworld's most popular oxygen-free copper speaker wire for custom installations and budget music systems. For Series 8, we've doubled the number of strand groups in this 14 AWG cable for improved clarity and punch.

Luna™ 8 Digital Audio Cable

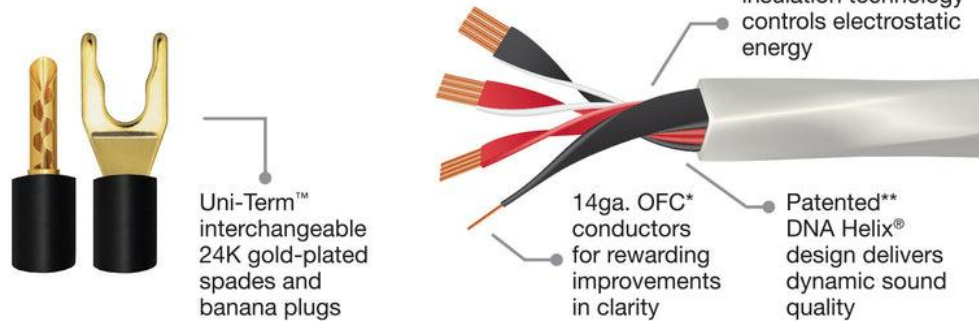

Innovative designs connecting passion with technology

*Oxygen-Free Copper **U.S. Patent #8,569,627
