

WIREWORLD®

CABLE TECHNOLOGY

ECLIPSE 8 SPEAKER CABLE: With the refined tone quality of the world's purest copper in a seriously upgraded design, Eclipse 8 speaker cables provide the world class performance of the Octo DNA Helix at a cost that suits many high end audio systems. Eclipse 8 is Wireworld's largest cable with Ohno Continuous-Cast® 7N copper conductors.

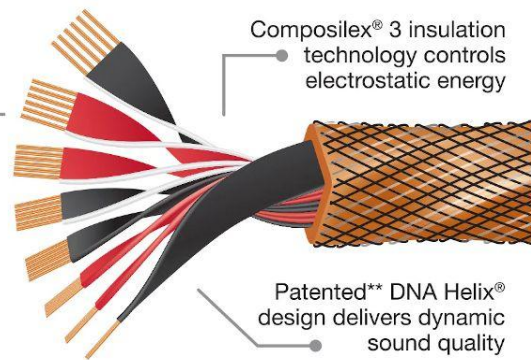

Eclipse™ 8 Speaker Cable

Innovative designs connecting passion with technology

Uni-Term™ interchangeable silver-clad or gold-plated spades and banana plugs

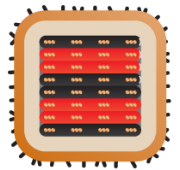

9ga. OCC*-7N copper conductors provide the refined tone quality of the world's best copper

Compositesilx® 3 insulation technology controls electrostatic energy

Patented** DNA Helix® design delivers dynamic sound quality

Eclipse Speaker Cable (ECS)

<p>Improvements: (Sonic) Greater definition, dynamic expression and bass extension than Eclipse 7. (Physical) Greater flexibility & smaller</p>
